the course venue

BACKGROUND

With 20 interconnecting halls, at the heart of the UK's transport network, the NEC continues to be a conference and exhibition venue of today, and of the future. We stage around 140 trade and consumer events each year, ranging from world-famous public shows such as Crufts and Clothes Show Live, to huge international trade exhibitions like IFSEC and Spring Fair, Birmingham.

HISTORY

It was 1976, the visionaries behind the NEC might have made a fashion faux pas with their flared suits and big hair, but they got their vision for the NEC of the future spot on.

Since the official opening of the NEC, the venue has built upon its early successes and now welcomes more than two million people every year.
